

Extensions I Find Useful and My Keyboard Shortcuts

Dave Richards

EXTENSIONS

The following is a list of some of the extensions that I find useful. I've sorted them by their sources. Many extensions are available at no charge although some require a paid license.

Use the included Extension Warehouse window to install extensions from the Extension Warehouse.
For extensions from the Sketchucation Forum use the Sketchucation Extension Store tool to install them.

Extension Warehouse

Curve Maker
Eneroth Upright Extruder
Eneroth Auto Weld
Eneroth Solid Tools
Solid Inspector2
CutList
CleanUp3

Sketchucation Forums

Sketchucation Extension Store
